

## Report to the Board of Directors, May 2021

Due to Covid-19 and the switch to Zoom classes, the website have been very busy this past year. All workshops have been presented on Zoom, and a recording of the workshop was posted to the website for registered attendees. Afternoon lectures, also presented on Zoom, were also recorded and posted on the website for all members. New programs have been added, such as the WGB Blog and the upcoming Summer Session.

Online sales this year totaled \$11,442.65, including renewals, new memberships, sales of publications, and registration for classes. Workshops were only open to members who had registered for a website membership.

Currently the number of website memberships is 232 of which 8 members are 'Bulletin Only'. Only 16 Guild members do not have website membership.

The online Used Weaving and Spinning Equipment list, which provides a free listing service to the New England and beyond community, has also been quite active this year. Weavers as far away as Pakistan have listed with our free service and many have sold their equipment. We have had a total of 265 listings from 218 different individuals. New listings are posted on the website every week.

Respectfully submitted,

Helen Sandoz
