

How to Search the Used Equipment List

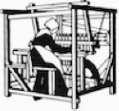

The Used Equipment list is in PDF format that you can easily search on the website or download to your computer. I recommend the former as the list changes weekly.

Both PCs and Macs search in the same manner - with a simple command. On your keyboard, hold both the Control and F keys (on a PC) or Command and F keys (on a Mac) to “find” certain words on the screen. This is very useful if you are looking for, for example, a Macomber loom.

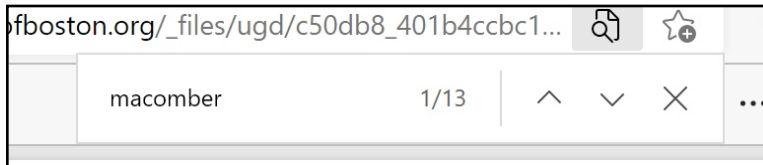

The place to buy or sell used weaving looms and spinning wheels. https://www.weaversguildofboston.org/_files/ugd/c50db8_401b4...

1 of 6 matches Contains

 **Listing ID** 2022.640.138 **Weavers' Guild of Boston Used Equipment List**
Type of Item loom **Dec 3, 2022**
Manufacturer **Macomber**
Description This **Macomber** 4 harness, add a harness loom is in excellent condition. It is 40" wide and the serial number is: #4791. Included in the package is a bench, 3 reeds, shuttles, spool rack, lease sticks.

On the Mac, the Find window reports the number of pages you can find the word ‘Macomber’ and you may cycle through them with the arrow symbols next to the search window. On the PC, the Find window reports the number of occurrences of the word ‘Macomber’, and you may cycle through them using the arrow symbols in the window.

When finished, click on ‘Done’ on the Mac or on the large **X** on the PC.

Let’s say you are looking for a 27 inch loom. Enter ‘27’ in the Find window. Or a spinning wheel, enter ‘Spinning’. Or a warping board, enter ‘warping’. You get the idea.

The ‘Find’ window works on any website page, in any document on your computer, or in any PDF.
