

When you click on the button '**Current Member List**', the list will open in a new tab in your browser. You may then download it to your computer as a PDF or review the list in your browser. I recommend the later as the list changes frequently.

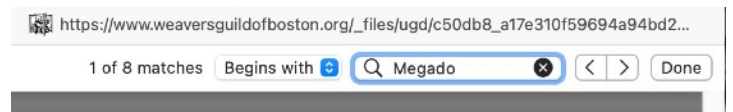

The list is organized in alphabetical order and tells a lot about each member - name, address, phone, etc. Here is my listing:

**Sandoz, Helen #4622**  
505 Autumn Ridge Dr (978) 796-5077 (H)  
Ayer, MA 01432  
sandoz@helensandoz.com  
multishaft drafting, rep, crackle, doubleweave  
Loom 1: Louet Spring 12 shaft  
Loom 2: Louet Magic Dobby 24 shaft

**So how is this list useful?** Let's say you wish to car pool and you want to see if anyone else lives in your town or a neighboring town. On your keyboard, holding both keys at once, type Control-F (on a PC) or Command-F (on a Mac). This will open a 'Find' window. I type in 'Ayer' to see if any other member lives in Ayer. The display on my computer moves directly to my listing and the window tells me there is only one match - me. I could then try surrounding towns.

Maybe I am interested in buying a Louet Megado and maybe a WGB member has one and would be willing to show it. I type 'Megado' in the Find window. The window tells me that there are 8 matches and the display goes to the first one.

Or perhaps you sat next to a new member at the last meeting and all you remember is that her first name is Mary. Type 'Mary' in the Find window. The result is 10 matches to 'Mary', and you can scroll through them using the arrow keys in the window.

**Note:** You can use the 'Find' window on any website, in any document, or in any PDF.
